

The University of Pécs...

 **650** 
1367 **years** 2017
of tradition

Ranked among

TOP3

Hungarian universities

UP belongs to the **leading 2,5%** of international higher education institutions **wordwilde**

/source: QS World University Rankings 2021/

International Accreditations European Foundation for Management Development EPAS (Business Administration BSc), European Commission (Architecture), US Department of Veteran Affairs (International Relations MA), Foundation for Advancement of International Medical Education and Research; Medical Board of California (General Medicine)

UP is one of the leading research universities in Hungary

Basic and applied research is conducted in the following main disciplines:

- Organic and inorganic sciences
- Social sciences
- Engineering sciences
- Humanities

In the EU framework we pursue research in:

- Environmental laser technology
- Biotechnology
- Pharmaceuticals

The first **1367** in Hungary®

With more than **30 years** of experience in international higher education,  our **2,000** lecturers provide world-class education to

 **20,000** students from  **114** different countries with a **22%** ratio of international students

Out of our **4,500** international students more than **1000** receive Stipendium Hungaricum Scholarship from almost **70** sending partners.

The University of Pécs provides education on various study fields at

 **10** faculties

 **24** own clinics

and supports student well-being with  **8** dormitories located in the residential area of Pécs.

7,700 m² modern research space with high-tech labs at Szentágothai Research Centre ensures that our colleagues on the fields of biotechnology, environmental technology, computer technology and nano science can excel.

Research and development projects

Biotechnology and Healthcare Industry

Smart Technologies (Engineering Sciences, Electronics Industry, Environmental Industry)

3D Print Centre

Clinic Centre – development of healthcare infrastructure

Szentágothai Research Centre:

- Biosciences Centre
- Environmental Sciences Centre
- Information Technology Centre

The main research areas at the University of Pécs

- Drug development with new mitochondrial targets
- Basic applied and clinical research in endocrinology
- Water resources (from molecules to climate issues)
- Economics – production management
- Basic applied and clinical research in neurosciences
- Biomedical engineering 3D
- Sustainability – food production, grape and wine research
- The historic presence and the future of the Hungarian population in and out of the Carpathian Basin

Most important research projects of the University of Pécs

Acronym	Grant Agreement nr.	Call	Title of project
EDUC-SHARE	H2020-IBA-SwafS-Support-1-2020	H2020	European Digital University - Research and Innovation with and for Society
NEURAM	712821 (H2020-FE-TOPEN-2014-2015-RIA)	H2020	'Visual genetics: establishment of a new discipline to visualize neuronal nuclear functions in real-time in intact nervous system by 4D Raman spectroscopy
VISGEN	734862 (H2020-MSCA-RISE-2016)	H2020	Transcribing the processes of life: Visual Genetics
Diverfarming	728003 (H2020-RUR-2016-2)	H2020	'Crop diversification and low-input farming across Europe: from practitioners engagement and ecosystems services to increased revenues and chain organisation — Diverfarming'
JARC	724161 (HP-ADHOC-2014-2020-JA-2015)	3rd Health Programme	Promoting Implementation of Recommendations on Policy, Information and Data for Rare Diseases
ICT4Life	690090 (H2020-PHC-2015-single-stage)	H2020	ICT services for Life Improvement For the Elderly
SMART GROUND	641988 (H2020-WASTE-2014-one-stage)	H2020	SMART data collection and inteGRation platform to enhance availability and accessibility of data and infOrmation in the EU territory on SecoNDary Raw Materials
FIRES	649378 (H2020-EURO-SOCIETY-2014)	H2020	Financial and Institutional Reforms for the Entrepreneurial Society - FIRES
Palliative Sedation	825700 (H2020-SC1-BHC-2018-2020)	H2020	The use of proportional palliative sedation for the relief of refractory symptoms: an international multicenter study' — 'PalliativeSedation'
ODYSSEUES	EU Research Fund for Coal and Steel 2018 "RFCS 2018"	RFCS	Coal-to-liquids supply chain integration in view of operational, economic and environmental risk assessments under complex geological settings
E! 12576 ABRIA	EUROSTARS	EUROSTARS	Holmium Amplifier for Breakthrough Research and Industrial Applications

Level of degrees and recognition

In September 2006, a modern higher educational training system initiated by the European Union was introduced in Hungary too, known as the Bologna process, which offers students an opportunity to pursue their studies in a dynamically developing, flexible European higher educational system.

The traditional college and university level training programs were replaced by a three-tier system consisting of a basic training program (BA, BSc), a master level program (MA, MSc), and doctoral level (PhD, DLA) program. The first cycle programs last 6-8 semesters (3-4 years, 180-240 credit points) and lead to a Bachelor's degree. The second cycle programs lead to a Master's degree and last 2-4 semesters (1-2 years, 60-120 credit points). One-tier, undivided, long-term Master's degree programs (5 to 6 years) are offered in some fields of study, e.g. in human medicine, dentistry, pharmacy, veterinary medicine, architecture, law and in a few programs of art education. All Bachelor's and Master's degrees grant access to the labor market. A four-year doctoral program is a postgraduate alternative that may follow any Master's or equivalent qualification. The university offers shorter programs as well, such as preparatory programs, summer universities and partial trainings. In addition, it attaches great importance to training in the colleges for advanced studies. Nearly every faculty offers training in the framework of this organization that encourages students to pursue their own research.

The university offers shorter programs as well, such as preparatory programs, summer universities and partial trainings. In addition, it attaches great importance to training in the colleges for advanced studies. Nearly every faculty offers training in the framework of this organization that encourages students to pursue their own research.

Due to the European Credit Transfer System (ECTS), which was introduced in September 2003, credits and degrees earned in Hungary are transferable to other European institutions and vice versa. In addition to the diploma, students are also provided with a special supplement that is recognized all over the European Union.

In order to ensure high international standards, strict quality control measures are applied. The Hungarian Accreditation Committee (HAC) conducts continuous institutional and program accreditation procedure and monitors the quality of educational activity for compliance the European Standards and Guidelines. Hungarian higher education institutions and courses are accredited by HAC.

Pécs is among the very first European Universities

As the EDUC – European Digital UniverCity consortium has been awarded with the 5 million euro grant of the European Commission, Pécs is in the elite club of European Universities. EDUC will create the foundation for an innovative education area based on new digital technologies, and the promotion of multilingualism and cross-disciplinarity, in which students will be placed at the very centre of concerns.

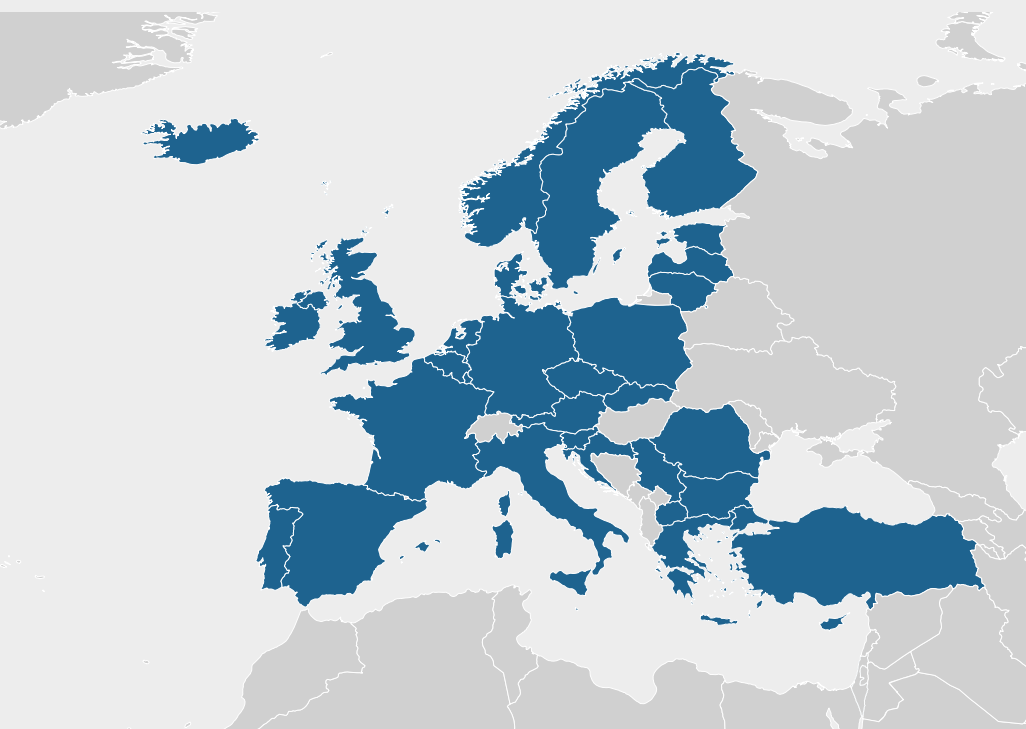

By 2025, EDUC's objectives and actions will have paved the way for a new university, more inclusive in geographical and sociological terms, academically innovative, connected to its ecosystems, and with the full capacity to meet all of society's contemporary challenges.

European Connections

The University of Pécs manages a wide range of inter-university agreements with 392 European institutions in 30 different countries. These partnerships include student mobility schemes that allow us to both send and receive students each year for short and long-term exchanges. The programs in which the University participates include Erasmus+, Campus Mundi, CEEPUS, and Erasmus Mundus.

Incoming students are able to choose from more than 700 courses taught in English, covering a range of disciplines. Through this, international students can experience the academic and cultural lifestyle of a Hungarian student despite belonging to their home institution. Students also immerse themselves in a truly international community of peers, being exposed to new languages, cultures and ideas.

Global Partnerships

Over the years the University of Pécs has built up a wide range of partnerships with foreign universities outside of the EU, that include tuition fee waiver student exchanges. These partnerships help the university to maintain excellent international visibility, and to continuously upgrade its research activities, academics and student services in strong alliances with overseas partners.

We are proud to say, that 96% of incoming students were satisfied with the academic mentoring and administrative support at University of Pécs, and 100% of them were satisfied with their overall mobility experience in Pécs.
